# Crafted Comfort

Small details might be overlooked in grand designs, but the tiniest detail is often the one thing that makes a project truly stand out. Intuitive planning figures in all of Taft Properties' developments, highlighting amenities and innovations that make a discernible difference in the quality of life. This is Taft Properties' signature Crafted Comfort.

## Lever-type Door Handles

Requiring less effort to operate than doorknobs, these handles make opening doors easier.

## Soft-close Cabinets

The sound of banging cabinet doors is eliminated with soft-close hinges.

## Standard-sized Modern Design Fiberboard Doors

Made of engineered wood, these doors are not only durable; they are also more environment-friendly.

## No-drip Countertops

Raised edges on sink countertops prevent spills from reaching the floors.

## Elevator Card Access System

Building security is enhanced by a system that limits floor access to its residents.
